President and Head of Organizing Committee: Erwin Mayer

Participation in the ASVÖ King of the Lake is exclusively at the participant's own risk and responsibility. The participant forgoes the right to pursue any legal claims against the organizer or its representatives. The organizer assumes no liability for the loss of, or damage to bicycles or other equipment. Any and all damage to health resulting from participation in the event, as well as other damages, criminal or civil legal proceedings etc., shall in no way constitute liability on the part of the organizer or its representatives. It's the right of the organizer, without cause, to prohibit athletes from starting at the King of the Lake if the reputation of the event, the sponsors or the communities involved could be affected.

Participants are aware that photos will be taken at the event location which may also be used for advertising and documentation purposes pertaining to the event.

During the period of the race itself, the course will be blocked off to road traffic. However, racers must obey the customary rules of the road (StVO) and safety helmets are required!

The organizer accepts no liability of whatever nature with respect to damage claims based upon the slight negligence of the organizer or its representatives.

Due to safety concerns, participants may not warm up on any part of the course itself during the roadblock. Failure to comply with this requirement will result in disqualification!

Lining up at the Start

Riders must line up no later than 5 minutes prior to the start (bike inspection!)

Behavior during the Race

Riders must use the right lane exclusively (due to the possibility of oncoming traffic such as police, race marshals on motorbikes, fire brigade, ambulances etc.!)

In order to make passing other bikers as safe and fair as possible, bikers must always keep to the far right of the lane.

Cutting corners is strictly prohibited and will likewise lead to **disqualification!**

Slipstreaming is prohibited and will lead without exception to **disqualification!**

Accepting food and drinks during the race is prohibited.

What is Slipstreaming?

Obvious slipstreaming immediately behind the biker in front, or within a distance of less than 10 m and at the same speed as the rider in front. When overtaking, riders must maintain a distance of at least 2 meters and may not try to exploit the slipstream of the rider they are passing.

Be especially cautious on the last curve on the Agerbrücke bridge! Reduce speed!

Course marshals (stationary and mobile) constantly monitor the race!
